Mentee Testimonials

Kathryn Brooke Skinner. Colorado, USA

The most valuable asset I gained from the Dream Mentorship was a community of women in different stages of life seeking to make a difference in the world bigger than just themselves. It was encouraging to hear the success stories and journeys of women who have found their way in life to make an eternal impact, while also learning about the struggles and triumphs of women my own age, trying to figure out what's next. The dream mentorship helped give me the tools, direction, support, and encouragement I needed to walk boldly into the person the Lord has called me to be."

Lauretta Oyoh, United Kingdom

"The program was indeed loaded, in fact 2hrs seems to go by so quickly, I was amazed at the delivery of the program, it was rich, real, and designed for the participants to be able to identify and explore traits that was specific to them, and this was the beautiful thing about the program, unlike some courses where the facilitator pushes a lot of generic information and try to get all participants to fit into a box, dream mentorship was so different, very different. The program also availed us the opportunity to meet wonderful women/ ladies from all over the world, (as participants and guest speakers), and it was very refreshing to see everyone had that thirst for continuous improvement, and it was a beautiful reminder for me that we all have challenges, it's not always going to be easy but we must have courage and faith in the word of God."
